

ArcelorMittal's revamped product document centre for industrial applications

ArcelorMittal's fully revamped product document centre for Industry has an improved user interface and several new features. This will help you to quickly find the technical product information and promotional material you need.

The changes also mean the product document centre is now easier to view on mobile devices. Special modules with media files and success stories are available, with product videos, advertisements, Fabric of Life articles based on customer testimonials, and many other resources.

Explore it now!

What's in it for you?

In our document centre you'll find everything you want to know about our product offer. You can also choose your favourite products, and save files and links in a briefcase so you can download and share them when needed.

ArcelorMittal customers can use the new product document centre to send information directly to their customers and stay up to date with product changes. If you are registered and logged in, you can send a briefcase with relevant product information in a personal email to your customers. You will also receive an alert whenever a document in your briefcase is updated.

How to register?

1. Select the 'Register' button in the 'My briefcase' box (you will find it in the right column of the product document centre).
2. Enter your personal data in the form.
3. Read the terms of use and then select the tick box at the bottom to indicate that you have agreed to them.
4. Click on the 'Send' button.
5. You will receive a confirmation email with instructions. Follow these instructions to finalise your registration. You can then log in.

If you are an ArcelorMittal customer and want to know more about the revamped product document centre, contact your local ArcelorMittal sales team or Client Technical Support (CTS) manager. They will be more than happy to help you get the most out of this valuable resource.

Not an ArcelorMittal customer yet? Use the contact form at industry.arcelormittal.com/getintouch to send us your questions.
